```java
import javax.swing.*;
import java.awt.*;

class RajzPanel extends JPanel {
    protected void paintComponent(Graphics gr) {
        super.paintComponent(gr);
        setBackground(new Color(130,180,160));
        gr.drawOval(40,80,320,100);
        gr.drawRect(40,80,320,100);
        gr.setColor(Color.WHITE);
        gr.setFont(new Font("Arial",Font.BOLD,40));
        gr.drawString("Végre grafika!",60,140);
        gr.drawLine(60,140,340,140);
        gr.setColor(Color.ORANGE);
        gr.fillRect(0,200,500,10);
    }
}

public class GraphTest extends JFrame {

    public GraphTest() {
        setBounds(500,200,400,280);
        setDefaultCloseOperation(JFrame.EXIT_ON_CLOSE);
        getContentPane().add(new RajzPanel());
        setVisible(true);
    }

    public static void main(String[] args) {
        new GraphTest();
    }

}
```
